## AJUSTA

### installation & long term operation benefits

The Ajusta H2O Meter Box is designed to meet current specifications and installation requirements. It is suitable for urban or rural locations, for new housing schemes or country laneways.

From simple stop valve installations to full concentric meter with automatic meter reading (AMR) capability, the Ajusta H2O Meter Box is the answer.

## Right first time - Every time

### easy to install - easy to operate

The Ajusta box with telescopic option has unbeatable adaptability in the field with screw down height adjustment from 690mm to 540mm to suit different service pipe depths. Ideal for congested trenches, the telescopic design means no on-site modification, no loss of strength and only minimal excavation.

Manifold comprises screw down stop valve with anti-shear torque limit mechanism, meter housing, non-return valve and accepts G 1½" concentric water meter.

Certified Quality:  
**Water Industry Specification (WIS 4-37-01).**  
**WRAS approval.**  
**Grade B load bearing (exceeds 5 tonne) capability.**
